

Nebraskans for Solar Launching Green Watts for Good

Nebraskans for Solar (NFS) needs your help to raise funds to support solar initiatives in our community. Our goal is to establish a revolving account to install solar PV systems on homes in an effort to provide clean, abundant green energy. We will partner with local nonprofits, like Habitat for Humanity of Omaha and others, to not only protect our environment, but also to save families money through solar systems.

Green Watts for Good Fundraiser

- Contributions will be deposited in Nebraskans for Solar's **Green Watts for Good Savings Account** at Metro Credit Union.
- We are raising funds for 4-kilowatt PV systems: \$6,500 per system. The solar panels come with the manufacturer's warranty to last 25 years.
- Our partnering nonprofit and Nebraskans for Solar board members, who include three solar professionals and four who have rooftop solar, along with other volunteers, will install a 4-kilowatt PV system on a demonstration home.

Ways You Can Get Involved in Green Watts for Good

- Learn more about **Green Watts for Good** at all our community events, on our website and Facebook page, and from our newsletters--and help us spread the word!
- Join us for a post-installation party at the solar-powered demonstration home.
- Make a tax-deductible contribution: Please make checks payable to Nebraskans for Solar, with Green Watts for Good in the memo line. Mail to:

Metro Credit Union
PO Box 390696
Omaha, Nebraska 68139

If your ecology or sustainability club, faith group, foundation, business or other organization would like to sponsor a solar system for a family in your community, send us an email: nebraskansforsolar@gmail.com

Please join us and help to create Green Watts for Good!
